Dear Member of Parliament,

On behalf of Medtronic Canada, I am delighted to congratulate you on your successful election to Parliament in order to represent your riding and to contribute towards improving the lives of all Canadians.

We are living in these unprecedented times of change and uncertainty, particularly in healthcare. As a global leader in medical technology, services and solutions, Medtronic strives to improve the health and lives of millions of people each year, here in Canada and around the world. We believe our clinical, therapeutic and economic expertise can help address some of the complex challenges—such as rising costs, aging populations, and the burden of chronic disease—faced by families and healthcare systems today. But, we can't do it alone. This is why we're committed to partnering in new ways and developing alternative solutions that deliver better patient outcomes and improve lives.

We have a deep understanding of the Canadian healthcare system and its challenges after being in Canada for 50+ years, and are deeply committed to its success. We are using our experience, extensive partnerships, and the passion of our 1,100+ employees in Canada to help transform healthcare by bringing innovations to patients and healthcare professionals that will help improve access and patient outcomes, and make the system sustainable.

We have a long standing presence in Canada, with our Canadian commercial and corporate head offices and manufacturing in Quebec and Ontario, as well as a regional office and Medtronic Resource Centre in British Columbia. We also participate in a number of world-class research partnerships here in Canada. We believe we can help the Government deliver on its commitment to deliver outstanding healthcare and value to Canadians, and look forward to collaborating with you towards this common endeavour.

Once again, congratulations on this new and exciting next chapter!

Sincerely,

Neil D. Fraser  
President
